

Reimagine the future of health using predictive intelligence

Sample Products to be offered through NHS Dynamic Purchasing System

Non-Clinical AI Solutions Sample Product Summary

Oracle Cloud Infrastructure (OCI)

1. AI Vision and Drones for Inventory Management
2. HeatWave Generative AI [Natural-language queries, Retrieval-Augmented Generation (RAG), Large Language Models (LLMs)]
3. Run 3rd-Party applications (e.g., Epic and Cerner) on Oracle Cloud VMware Solution. Cerner is a supplier of electronic prescribing and medicines administration (ePMA) system used by NHS trusts.
4. Oracle Health Data Intelligence for personalised care plans and real-time insights
[See Product Sheet: <https://www.oracle.com/uk/health/population-health/>]
5. Oracle Health Clinical AI Agent (formerly Oracle Health Clinical Digital Assistant) and PowerChart Touch

See Product Sheet: <https://www.oracle.com/a/ocom/docs/industries/healthcare/oracle-clinical-digital-assistant-solution-brief.pdf>

See Video URL: <https://youtu.be/RMxUvVJTL-U>

Products and capabilities for healthcare:

Clinical applications

Key benefits & applications:

1. Electronic health records (EHRs), electronic medical records (EMRs) covering:

- 1.1 Automating clinical and financial workflows
- 1.2 Improving health system business operations
- 1.3 Empowering care delivery networks
- 1.4 Enabling and accelerating real-world evidence

2. Oracle Health Clinical AI Agent

- 2.1 Dictation assistance using voice commands
- 2.2 Action assistance using voice commands
- 2.3 Natural Language Processing (NLP) to access patient details and perform frequent clinical workflows
- 2.4 Conversation assistance to generate draft clinical notes

A low risk choice

Consulting as a Subscription

Agile implementation

Flexible Consulting Framework

"Speed to Value" is our USP

Greater control over suppliers

Tracked communication

Decrease in lead times

Control the process

3. Oracle Health EHR Nursing Mobility

3.1 Image capture

3.2 Clinical and chart integration

3.3 Streamline bedside workflows (incl. specimen collection)

3.4 Critical alert notifications

4. Public health reporting

4.1 Surveillance aggregation and analytics

4.2 Syndromic surveillance

4.3 Electronic lab & case reporting

4.4 Immunisation reporting

5. Virtual care/observation/digital monitoring

5.1 Transmit patient data directly to care provider

5.2 Oracle Health Mobile Vitals Collection

5.3 Laboratory information system (LIS)

5.4 Bedside Medical Device Integration (BMDI)

6. Enterprise document management

6.1 Registration and laboratory automated workflows

6.2 OCR document import capabilities

6.3 Oracle Health Patient Electronic Signature solution

6.4 Barcode recognition, Optical Character recognition, and intelligent form recognition to index documents to the correct patient.

6.5 External enterprise image management

6.6 Simplify billing processes
